Mission Statement

We the Governors and Staff of St Ronan's believe the school to be a vital part of the Catholic Community. We are firmly committed to:

- the aims of Catholic Education
- providing a broad and balanced curriculum to ensure that our children develop their full potential
- developing positive relationships within our school and with our parents and the wider parish community
- creating a welcoming educational community centred on Christ so that His values and Gospel message pervade the whole life of our school
- establishing a caring Catholic ethos with a positive pastoral care system
- fostering within our children the ideals of tolerance of, respect and understanding for different faiths and cultures

Our School Values:

- Happiness and enjoyment
- Effort, attitude and perseverance
- Team, school and community spirit
- Honesty, fairness and trustworthiness
- Respect and tolerance
- Politeness, kindness and caring
- High standards of behaviour
- Partnership

School Ethos

St Ronan's Primary School sets out to create a caring and supportive environment, where all children can develop intellectually, emotionally, physically, socially, morally and spiritually.

In addition, the delivery of the curriculum is designed to develop interest and motivation in children using enthusiastic teaching and interesting and relevant learning activities.

- Children are encouraged to achieve high standards and are given as much help as they may need in order to achieve success.
- There are many extra curricular activities that encourage co-operation and discipline through team games. Children are further encouraged through a variety of musical/dramatic productions to develop self-discipline.
- Within this context there is a code of discipline that is consistently enforced to ensure that the education of children take place in an orderly and caring environment.
- Through continual monitoring of individual children's achievements, class teachers provide work pitched at a level that challenges each child yet does not frustrate.
- Good relationships within the School are vital. The staff set an example by working well together with a harmony of purpose and providing an interesting and caring environment within their classrooms.
- As part of the pastoral dimension of the School, children are taught how to care for others, to respect other people's points of view and to respect property. Children are encouraged to contribute to charity and to help people who are less fortunate than themselves.

We are a catholic maintained co- educational school seeking to promote throughout the school community an ethos, which reflects the Christian teaching and values.

We see the school as part of the wider community, responsible to it and providing an important community service. We take seriously our links with the community and encourage the involvement and interests of parents and others in the welfare of individual children and the school as a whole.

We seek to provide an excellent educational service - one that is planned and developed to the highest professional standards so that each pupil may benefit to the full.

NON SMOKING POLICY

1 Introduction

1.1 At **St. Ronan's Primary School** we believe that smoking is harmful to health, and so we strongly discourage our children from smoking. Consequently, the entire school premises is a non-smoking establishment.

2 Rationale

2.1 Research shows that almost a quarter of all young people are regular smokers by the age of 15. Almost all adult smokers took up the habit when they were children. About 450 children a day take up the habit. Smoking is regarded by the medical profession as the major cause of many illnesses. It is estimated that approximately 120,000 smokers a year die in the UK because of their smoking habit. Children can be harmed by passive smoking, i.e. by inhaling smoke from other people's cigarettes. It is known that smoking is harmful to the unborn babies of mothers who smoke. For all these reasons, our school does all it can to discourage children from smoking, and to educate them, so that they grow up to lead a healthy lifestyle.

3 Aims and objectives

3.1 We aim to:

- help children know and understand the dangers of smoking, and the harmful effects that smoking can have on their bodies;
- provide children with the knowledge and information necessary for them to make responsible choices in relation to smoking;
- equip children with the social skills that enable them to resist the pressure to smoke, either from their peer group, or from society in general.

4 Organisation

4.1 We teach children about the dangers of smoking as part of their personal, social and health education (PSHE) programme in Primary 7, with advice and support from the Health Authority. As well as teaching the children about the effects that smoking has on the body, we engage them in discussions about the reasons why people start to smoke, and what they themselves might do if other people encourage them to try cigarettes. The children's class teacher leads all such discussions in a sensitive manner. S/he encourages the children to explore the views of other people, and to reflect on their own personal convictions with regard to smoking. While we explain that it is illegal to sell cigarettes to people under sixteen years of age, our aim is to help the children make their own decision not to smoke simply because they believe it is the wrong lifestyle to choose.

4.2 The dangers of smoking sometimes arise as an issue in science lessons at Key Stage 2, when children learn about the way substances affect the body, e.g. when we teach them about how medicines can help the body. When such an issue arises, the class teacher deals with it in context, and answers the children's questions to the best of his/her ability, taking care to explain that smoking is dangerous, and should be avoided.

4.3 Parents may view any of the smoking-related teaching materials that we use in our school. We make these materials readily available at our annual presentation to parents of Primary 7 children about the PSHE curriculum.

5 Staff

5.1 Smoking is not allowed on any part of the school premises, as we do not want to present smoking as acceptable. If any member of staff wishes to smoke, s/he must leave the school site (during their own time). Should we find any member of staff smoking at school, we would consider this a serious breach of the terms of employment. Disciplinary action may be taken against that person.

6 Monitoring and review

6.1 It is the role of the headteacher to ensure that this policy is fully implemented. The governors will, from time to time, review this policy.
